LEVEL I FASTENER APPLICABILITY AND DEFINITION

Fasteners are defined as bolts, nuts, studs, bolt-studs, and screws used for joining two parts, components or equipment together and loaded in tension.

Level I material is identified by Newport News Shipbuilding purchase orders through the 'Material Group' designation of MC-I (non-nuclear) or CM-I (nuclear).

Only the manufacturers listed herein may be used to fulfill Newport News Shipbuilding Purchase Orders for fasteners designated as Material Control Level I. In addition to this requirement, the following applies:

1. The manufacturers listed herein must be the actual manufacturer of the supplied fasteners and they cannot procure or subcontract the manufacture of the fastener to another manufacturer or company who is not on this list.
2. Level I fasteners provided by approved fastener distributors must be manufactured by one of the approved manufactures listed on page 3.

Questions regarding suppliers not on this list, including requests for additions, should be directed to the Supplier Quality Department, Newport News Shipbuilding at the following link: [Contact Link](#)
